## Social

A Social Skills Group for older kids

## Sense

Our **Social Skills** groups are designed for children and adolescents with Pervasive Developmental Disorders who experience difficulty in the areas of communication, interpersonal relationships, cooperation, and relational skills.

- Through various modalities (i.e. stories, music, arts, etc.) they will learn skills to enhance their relationships and awareness of self in a safe and compassionate environment.
- Parents receive educational resources and support from our licensed therapists. Periodic parental participation, which is unique to our Social Skills groups, is essential for continuity of care from home, school, and social environments.
