

Alexian Brothers Behavioral Health Hospital

CENTER FOR ADDICTION MEDICINE

The **Center for Addiction Medicine** offers a variety of treatment programs and services for individuals suffering from substance dependency/abuse and other addiction disorders. Our **hallmark treatment approach** provides evidenced-based, person-centered interventions for comorbid conditions including anxiety and depression.

The philosophy of the Center is that an addiction – including alcohol, drug, internet, gambling, spending and/or sex – is a medical disorder which can be progressive in nature and if left untreated will usually result in psychological, physical, social and spiritual deterioration. This deterioration affects the individual, their family, friends, and coworkers. The Center for Addiction Medicine is a safe therapeutic environment that helps to stabilize and motivate patients to their next intervention or treatment option.

Our Expert Center for Addiction Medicine Leaders:

Gregory Teas, M.D.
**MEDICAL DIRECTOR
ADDICTIONOLOGIST**

Salahuddin Syed, M.D.
ADDICTIONOLOGIST

Linda Lewaniak, LCSW, CAADC
CLINICAL DIRECTOR
