

Nationally Recognized for Advanced Stroke Care

Alexian Rehabilitation Hospital is part of Alexian Brothers Hospital Network (ABHN), a network known for providing the highest standard of healthcare. Both ABHN acute care hospitals, Alexian Brothers Medical Center and St. Alexius Medical Center, are nationally recognized for providing advanced stroke care by the Joint Commission on Accreditation of Healthcare Organizations. St. Alexius Medical Center is recognized by the American Stroke Association for implementing a higher standard of stroke care based on nationally accepted recommendations.

As a dedicated leader in stroke prevention and treatment, Alexian Brothers Hospital Network is committed to providing a continuum of care for stroke patients from screening and acute treatment to post stroke rehabilitation.

ALEXIAN REHABILITATION HOSPITAL

Alexian Rehabilitation Hospital in Elk Grove Village, Illinois is a unique collaboration between two distinguished institutions – Alexian Brothers Hospital Network and the Rehabilitation Institute of Chicago. These two institutions share the same vision: a dedication to providing the finest, most comprehensive rehabilitation services for people with disabilities. Such excellence is recognized by U.S. News & World Report, which in 2006 ranks Alexian Brothers among the best in the nation in two specialties and has ranked the Rehabilitation Institute of Chicago the best rehabilitation hospital in America every year since 1991.

Alexian Rehabilitation Hospital

Rehabilitation Institute of Chicago

For more than seven hundred years, the Alexian Brothers have cared for the sick, the aged, the poor and the dying. The basic Judeo-Christian beliefs that inspired the founders of this Catholic religious congregation sustain its ministry today. This heritage is espoused by the governance, management and entire health care team throughout Alexian Brothers Health System in their mutual commitment to promote the physical, mental, spiritual and social well-being of all individuals served through the health care ministry.

Alexian Rehabilitation Hospital: Helping You Achieve the Best Life Possible

The effects of a stroke on mobility, memory and communication can vary greatly from one person to another, and the pace and progress of rehabilitation can vary, too. What's important to know is that the rehabilitation care provider you choose has the depth of experience and breadth of services to help you achieve the best life possible. Alexian Rehabilitation Hospital (ARH) offers the best in rehabilitation care provided through an affiliation of Alexian Brothers Hospital Network and Rehabilitation Institute of Chicago (RIC).

Specialists Focus to Help You Reach Your Full Potential

From the inpatient unit designed exclusively for the care and comfort of stroke patients, to the extensive team of physicians, nurses, therapists and others who specialize in stroke rehabilitation, ARH uniquely combines the most advanced treatments and therapies that may help each individual patient achieve their goals.

- ARH physiatrists, physician specialists in physical medicine and rehabilitation, are recognized leaders in the field of stroke rehabilitation. They provide expert care to manage each patient's condition, help avoid complications that could impede progress, and map out strategies to maximize recovery and help avoid a recurrence of stroke.
- Physical and occupational therapists and speech language pathologists work with patients individually and as a team to help address the unique effects of a stroke. Whether the goal is to help build strength and balance for better mobility, regain the skills of every day activities, or enhance memory, understanding

and communication, the team helps patients regain their independence and return to their communities.

- ARH's specialized services complement the core team and help each individual realize their full potential:
 - Assistive technologies
 - Driver rehabilitation
 - Prosthetics and orthotics (braces and splints)
 - Neuropsychology
 - Peer counseling and support groups
 - Spasticity management
 - Therapeutic recreation
 - Vocational rehabilitation

The Bridge Back to Life

For people who have had a stroke, inpatient rehabilitation may be the first step across the bridge back to life. But ARH's guidance, support, and expert rehabilitation care are available to you every step of the way.

- ARH prepares you to return to your family and community, equipped with the knowledge and skills you may need to move confidently into the future:
 - Education and training of patients and family members in ongoing care or adaptive techniques to compensate for diminished or slow-returning function
 - Communication with the patient's primary physician to ensure a smooth transition and continuity of care
- The Day Rehabilitation Program at ARH is specially designed for patients who no longer require daily physician visits but can benefit from multiple, intensive therapies to continue their progress.

- ARH Outpatient Services are ideal for those who may need only one type of therapy to refine their skills, such as physical therapy for mobility or speech therapy for communication.
- ARH Day Rehabilitation Program and Outpatient Services are conveniently located in the northwest suburbs, and are staffed with physicians, nurses and therapists who deliver the same innovative treatments and therapies that have earned RIC its reputation for the best in rehabilitation care.

Learn More about the Best in Healing and Hope

To find out more about how ARH can help you or a loved one achieve the best life possible, please call **847.640.5600** or ask your physician for a referral to ARH.

Alexian Rehabilitation Hospital carries out the healing mission of the Catholic Church through the Alexian Brothers ministries by identifying and developing effective responses to the health needs of those we are called to serve.
